Women Will Be Glad to Buy These \$13.75
Wool Suits at the Little Price of

Since we never handle suits as low in price as \$13.75, you must know that these are better than \$13.75 suits.

They bear the ear-marks of fine \$25 tailored suits—high-grade satin lining, satin shields, hand-tailored button holes. The material, too, is a closely sheared all-wool cheviot, as smart looking as any we have seen in any \$25 suits. Are these, then, \$25 suits? No, we think not. We will say, however, that they are the best looking suits you or we have seen this season for quite a bit more than \$13.75.

An Overwhelming Response Has Followed the Presentation of Our

Annual Novémber Silk Sale

NOTHING SO GOOD AS THIS SILK SALE has ever before

been offered to the women of this vicinity.

First because of the quantity, quality and beauty of the Silks.

Next because of the low prices. Next because the sale comes at the height of the season. This disposal includes the most.

Fashionable Silks at Savings of a Fourth to a Half

There are no more desirable Silks than these. They are the weaves and the colors and the qualities out of which the season's most beautiful and useful gowns are being made.

We believe we have done something well worth while in preparing this Sale—and we acknowledge that it would not have been done without the help of the foremost silk weavers. Will you have a share now? Interest to-day centers in the

In the Most Remarkable Sale Ever Offered in This or Any Other Store in Atlanta---Thursday

At 1/4 of Its Actual Value

HIS great purchase could not have been made at a more opportune time. It would have been made been an extraordinary stroke of fortune at the end of the winter, but right in the midst of the season it is little short of marvelous.

It's a tremendously important sale from every point of view---from the finality of price, which you will see below---from the finality of style and quality, which you will

Those who remember our great St. Louis Purchase Sales of past seasons will welcome this announcement.

We have planned this sale to even eclipse any event ever

before attempted—to set a new high record of value-giving.

Under ordinary conditions, we sell Millinery, on a conservative basis, from 1-3 to 1-2 less than at other shops. So here's a double saving for those who take advantage of this sale.

Our entire Millinery Section will be devoted to this event---with additional salesforce to insure prompt and unhurried

STEVENSON might well have amplified this aphorism with, "And there is no out of doors like southern California." Can anyone gainsay it or can any one deny that for years "to spend a winter in California" has been uppermost in his mind, in fact, an ambition? Let this be the year to enjoyan abundance of sunshine, blue skies, green valleys, acres of flowers, fresh fruits, yachting, bathing, golf, motoring, fishing.

Fine Times To-morrow in the Junior Department Third

A number of Junior suits have lost a good part of their price.

Smart Junior dresses are reduced.

Children's much-needed rain capes are reduced.

There is good news of children's hats—but read it all, it is fine reading for those who think of daughter and expenses.

Fifteen Junior Suits at . . . \$11.75 They Were \$15, \$17.50 and \$20

This is a little clearaway, a readjustment of stocks—so the saving.

Included are serges, corded eponges and mixture weaves.
The coats of some have quaint little draped backs, a matter of tucks at the side, others are cutaway and others are plain, box-y, colorful, velvet collars, draped skirts; button trimmed.

Seldom do such suits find their way into such sales at this season—but we must keep stocks ship-shape.

Gray and several shades of blue.

Smart Junior Suits at .. \$15.00 A Saving on Every One

Not many in this group.
Haste will pay a dividend.
A special lot of \$15.00 suits that it would hardly be fair to compare with other Junior Suits around town at this price.
These are not \$15.00 suits.
There are diagonal cheviots and serges among them, with coats that are oftenest blouses of the Russian persuasion, belts are placed very low, collars are of velvets, the skirts are draped.
Blues and browns predominate.

And for that reason such sensible and serviceable affairs.

No early morning sneezing and catching of colds where one of these soft, downy robes is ready for her when she jumps out of bed.

In the small sizes they are \$1.00 and \$2.00, and this includes the "Kewpie" robe in blues and reds.

In the children's sizes they are \$2.00 to \$3.00.

In the Junior sizes \$2.25 to \$4.00.

Splendid Values and Styles in Children's Hats At \$1.50, \$2.50, \$5.00 and \$9.75

Those at \$1.50 and \$2.50 are the little felt hats that are best for school wear. They are "fixed up" with ribbon bands—many colors. At \$5.00 we come to the velours, the corduroys and smart ratines in red, navy, black. Train-nings are ribbons and feathers and soft white

At \$9.75 are charming velvet, beaver and imitation fur hats, many made fresh and girl-

ish with French flowers and ribbons and feathers.

Many of these are the soft hats (they wear so well) that the young folk seem to like best this season.

Fine Times To-morrow in the Junior Department Third

A number of Junior suits have lost a good part of their price.

Smart Junior dresses are reduced.

Children's much-needed rain capes are reduced.

There is good news of children's hats—but read it all, it is fine reading for those who think of daughter and expenses.

Fifteen Junior Suits at . . . \$11.75 They Were \$15 \$17.50 and \$20 They Were \$15, \$17.50 and \$20

This is a little clearaway, a readjustment of stocks-so the

saving.

Included are serges, corded eponges and mixture weaves.
The coats of some have quaint little draped backs, a matter of tucks at the side, others are cutaway and others are plain, box-y, colorful, velvet collars, draped skirts, button trimmed.

Seldom do such suits find their way into such sales at this season—but we must keep stocks ship-shape.

Gray and several shades of blue.

Smart Junior Suits at .. \$15.00

A Saving on Every One 10

Not many in this group.

Haste will pay a dividend.
A special lot of \$15.00 suits that it would hardly be fair to compare with other Junior Suits around town at this price.

These are not \$15.00 suits.

There are diagonal cheviots and serges among them, with coats that are oftenest blouses of the Russian persuasion, belts are placed very low, collars are of velvets, the skirts are draped. Blues and browns predominate.

Clang, Clang! Honk, Honk! Toot, Toot! Toy Town Is A-Bustle

"All off for Toy Town!"
We have just pulled in at the Terminal Station-ette.
The train we came on was run by electricity.
It arrived on time!
The porter-ette has taken our bags.
The bagman-ette is putting our trunks on the truck.
Now let's see the city!
An automobile is waiting.
The chauffeur cranks up.
That's a fine skyscraper-ette that looms before us.
And what a busy factory-ette with its whirling wheels and deafening hammers.

And what a busy factory-ette with its winning which have trip-hammers.

There are big crowds on the street!

Wonder what the attraction could be!
Ah, a circus parade!
See the big elephants, the camels, the funny monkeys, the bears, the lions, the horse-back riders and the clowns, were there ever such funny fellows—and the acrobats.

The little Dutch boy and girl do not know what to make of it all, they are not laughing like the other little doll boys and girls.

Clang, Clang!

A fire!

There go the hose wagon, and hook and ladder, here comes the puffing engine!

ing engine!
What a hustling busy city is Toy Town—plenty of Atlanta Spirit here.

It is all in the Toy Store of a new standard that has just been opened We warrant the grown-ups will have about as much fun out of it as the kiddies.

How the Government Aids Speculators and Hurts Farmers.

In the new Postal Savings Banks the deposits now amount to more than \$36,000,000. The Government pays only 2 per cent interest on this large sum.

A deposit as small as 10 cents is received by the Postal Savings Banks, and no one is allowed to deposit more than \$500.

More than \$500,000 persons have thus left their savings with the Government AT A LOWER INTEREST RATE THAN IS PAID BY ANY OTHER GOVERNMENT IN CHRISTENDOM.
What does our Government do with this money? Does it use these wise pennies of thrifty, patriotic people to aid the industry and the production of the country. THE FARMS, POR. INSTANCE, and so benefit the small consumer?

Not at all. The Government, in the Postal Savings Bank Law, does not act as if the consumers of the country, or even the postal depositors, were worthy of any special consideration. It acts as if the interests of private bankers were of the first consideration or paramount in importance. Postmasters are required immediately to redeposit all savings received by them in the nearest "solvent bank willing to accept such deposits." And although part of these deposits may afterward be invested in United States bonds, the banks MUST ALWAYS RE ALLOWED TO KEEP THE GREATER PART, OR 65 PER CENT OF THE TOTAL DEPOSITS OF POSTAL SAVINGS.

What does the national bank do with the money? It is forbidden to loan any of it to any farmer upon the security of his farm, no matter how good that real estate security may be. But the bank is free to loan it to other customers, or to send it to any "Central Reserve City" (New York, Chicago and St. Louis), where the money is used for the most part to promote speculative operations in the Stbck Exchange or grain pit.

The Government of France helped to create a financial lending agency to furnish money to French farmers at 4% per cent interest.

The Government of France helped to create a financial lending agency to furnish money to French farmers at 4% per cent interest.

interest.

Even the Government of England, traditionally cruel and unjust to Ireland, has provided a Royal Commission and an Irish Land act to improve the farm conditions of Ireland, providing money for the farmer at about 3½ per cent.

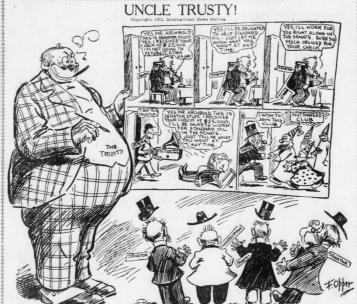

But in the United States the Government takes the small savings of the people, pay 2 per cent for them, and turns them over to national banks expressly forbidden to make loans to farmers.

over to national banks expressly forbidden to make loans to farmers.

THE AMERICAN FARMER IS FORCED TO PAY AN AVERAGE OF 8½ PER CENT FOR THE MONEY ESSENTIAL TO HARVEST HIS CROPS.

The six million farms of the country carry an average debt of \$1,000. They support twenty million farm workers. They feed the hundred million Americans. And they pay an EXCESS MYTEREST O'HARGE O'F 210 MILLION DOLLARS a year alone (8½ per cent instead of 5 per cent), while the reserves of all the 473 mational banks of the country, amounting at the last Comptroller's statement to 240 million dollars, are deposited under the law, in Central Reserve Cities for the benefit of speculators in stocks and bonds and to finance new trusts.

Is there anywhere such a perversion of government as this? Was any government ever guilty of more monstrous favorities than than the United States Government has long shown to the speculator and the banker, who by themselves create nothing, over the toiler and the actual producer, who by themselves create nothing, over the toiler and the actual producer, who by themselves create nothing that we sat or wear or require for our health or was the server of the producer of the produce overything that we sat or wear or require for our health or was the server of the producer of

Man's Animal Nature

Only by Constant Struggle Against This Instinct, He Declares, Can We Prevent Ourselves From Becoming Two-Footed Brutes.

By DR. CHARLES H. PARKHURST.

Dy DR. UHARLES H. PARKHURST.

A Man is not much but fiesh, and the state of the watched, taken care of and fostered within that is something of which we can not speak very definitely except to say that it is there. To take care of that something and to prevent it also from becoming fiesh is one of the problems of life. It is a problem so difficult if the problem so difficult in the wilderness, when the death

It is a problem so difficult we call them brutes, differing from

It's as Much Nature for an Apple to Rot as

It's as Much Nature for an Apple to Rot as to Ripen.

But when we meet, as we sometimes do, men and wore conceledy, It is very true that we must not suggested the flesh. The value and the growth of that in which is not flesh will depend a good deal on our keep-noticing how much they resemble four-footed creatures whose waith as a self-not consumed the flesh in a good condition of repair and preservation. The value and the growth of the flesh in a good condition of repair and preservation. The matter is a self-not consumed the flesh in a good condition of repair and preservation. The matter is a self-not and the flesh in a good condition of repair and preservation. The matter is a self-not and the flesh in a good condition of repair and preservation. The matter is a self-not and the flesh in a good condition of repair and preservation. The properties and preservation. The properties and preservation. The matter is possible for the control of the service of the service

This same truth is taught in that. Bible story of Christ's temptation in the wilderness, when the derif undertook to break Christ down undertook to break Christ down by holding his attention off from his better self and trying to make him think shout gratifying his animal impulses, and converting the stones, which lay about him, into bread.

We Must Not Neglect the Growth of Flesh and

Spirit.

To which Christ replied, "Masshall not live by bread alone."

Christ's reply to the devil is exactly in line with what these fore-

going paragraphs have been trying to say, only he said it better than we can and more conclusity. It is very true that we must not neglect the flesh.

The value and the growth of that in us which is not flesh will depend a good deal on our because the flesh in a good condition of repair and preservation.

The stomach must somehow be filled and the back must be covered to keep out the cold and the rain, and with a great many people, especially in times that are as difficult as these, that seems by he about all that it is possible fothern to do.

And yet even they can not afford not to do something that will help to keep alive and to keep growing that spot in them, down somewhere in the midst of the flesh, where are housed the finer and the ward-to-oking impulses of our nature.

We all have them, and it is the salvation of our life to keep live and in the property of the salvation of our life to keep them.
